For his second lecture on the William Allen Neilson Chair of Smith College, the great musicologist, Alfred Einstein, has chosen a topic ⁱⁿ which he is acknowledged the peculiar master: The Revolution in Music about 1500. Dr. Einstein will deliver his lecture on Friday, ~~xxx~~ November 4, at 5:00 in Sage Hall, room 5. The title of the lecture refers to the dramatic invention of the "new style" in Italy around 1500, which in an amazingly short time evolved into the rich letterature of the madrigal and of instrumental part-writing, in short into the whole foundation of modern music. In commenting on the recent publication of Dr. Einstein's magnum opus, his three volume Italian Madrigal, Dr. Paul Lang had vividly expressed the significance of the musical revolution of 1500 in these words: "Around 1500 Italian musicians rallied around the ideal of pouring spirit and meaning into words. They wanted to interpret the ^{part in} music and evolved the new individualistic musical language. Their proud claim of having invented a new style, a new musical language, received a powerful impetus in the introduction of musical printing, and there began an outpouring of the new fruit of the merger of Italian popular music and the Flemish counterpoint, the madrigal: a rich literature that reflects the change in European dynasties and the rise of the Italian. It also is the example of the greatest and rarest of historical influences focused upon a common goal to create a fascinating
